Preface

In this fast growing technological environment to make children globally fit and mentally alert individual, it is inevitable to make them aware of general trends and developments around us. General Knowledge has been prerequisite to all forms of learning.

General Knowledge (1 to 8) is a learning series of 8 books having aim to make the students competent in the present world scenario. The contents include a systematic, purposeful and objective study of a wide range of disciplines and environment around us. It prepares the learners to face this highly competitive and information oriented contemporary world with confidence and success.

The topics are arranged very systematically to make the children understand well.

Salient features of this series includes:

- Simple and lucid language.
- Eye catching picturisation with multi-coloured suitable pictures.
- Many interesting, unbelievable facts given in the form of **Fact Corner**.
- In order to improve mental ability, logical and analytical reasoning, Brain Strainers are introduced.

We would appreciate the suggestions, queries and feedback for the further improvement of the book and we also assure you that– Those improvements will surely be incorporated in our next edition.
